

Zachran Razendra, S.Tr.Kom

Software Engineer

Buah Batu, Bandung | razezach15@gmail.com | @zachranraze | www.linkedin.com/in/zachranraze

As a Software Engineer with a background in Multimedia Engineering Technology, I specialize in web development and user experience design. I focus on building efficient, scalable, and well-structured applications, combining strong technical skills with a deep understanding of user-centered design principles.

With a detail-oriented and analytical mindset, I am able to approach problems systematically and deliver effective solutions. I am highly adaptable, continuously learning new technologies, and committed to improving both technical and collaborative skills. I aim to create digital solutions that are not only functional, but also intuitive and impactful for users.

EDUCATION

Sarjana Terapan Komputer (S.Tr.Kom) **Oct 2020 - Dec 2024**
Teknologi Rekayasa Multimedia, Fakultas Ilmu Terapan, Telkom University

WORK EXPERIENCE

Programmer, PT EDIfly Solusi Indonesia (Contract) **Aug 2025 - Jan 2026**

- Designed intuitive, modern, and IATA-compliant user interfaces for the Type B messaging application, dashboard operations, and cargo/ground handling modules.
- Conducted user flow design, wireframing, and prototyping to transform manual processes into efficient digital workflows.
- Collaborated with the team to implement AI-based automation features and real-time data integration, supporting digital transformation in the aviation, airport, and border services sectors.

Tech Stack: TypeScript, Node.js, Express.js, MongoDB (Mongoose), JWT, Axios, REST API

IT Support, PT Alfalima Cakrawala Indonesia (Internship & Contract) **Aug 2023 - Jul 2024**

- Provide technical support for hardware, software, and network issues, ensuring minimal downtime.
- Maintain and upgrade IT systems, including servers, workstations, and peripherals.
- Document IT processes and conduct training sessions for staff on the effective use of technology.
- Update the company's website technology.

Tech Stack: Laravel, Tailwind CSS, MySQL

Frontend Developer, PT Bank Negara Indonesia (Internship) **Oct 2022 - Jan 2023**

- Develop front-end features for metaverse websites designed to enhance virtual customer interactions.
- Optimize web application performance by implementing efficient design and coding practices.
- Work closely with UI/UX designers and backend teams to ensure feature integration.

Tech Stack: React.js, JavaScript, REST API

PROJECT

Document Tracking System Website, PT Triwalana Sagala Pro **Feb 2026**

- Develop a web-based document tracking system with a digital workflow that includes real-time logging, status tracking, and audit trails.
- Design an intuitive interface with access controls and automated notifications to ensure documents are processed by the right parties.

Tech Stack: Laravel 12, Livewire v4, Flux UI, Spatie Permission, PHP 8.2, Tailwind CSS v4, Chart.js, Vite
